- **Is there a deadline by when I have to be in Rosenheim to take part in the courses?**
  This cannot be answered uniformly. Some courses do not require attendance and can be attended at any time. Other courses require attendance at the first class because places are allocated to the present students.

  Students who have already started their studies in Rosenheim must present the certificate by the end of September 2024. New applicants will have to provide proof of German language skills (A2) during the application period.

- **Why do I need German A2 certificate even if I only study in English?**
  The A2 certificate covers the basic knowledge of the German language. You need it to get along well in the country. If you want to work in Germany alongside your studies, this is also an important prerequisite.

- **Are all elective modules offered every semester?**
  No, a total of approx. six modules per semester are offered for selection. You can choose freely from the courses on offer. You will find out which elective modules are offered each semester at the introductory event and online in the study plan.
